Therefore whilst the driver remains the same in each version a different moulding of the instructor was used for each type.

The boxes are identical, except for the model numbering and the fact that the export model has 'L.H. DRIVE' overprinted on the side panels, just below the front wheel of the car in the illustration.

The final difference occurs on the instruction leaflet. The export instructions are much simplified with just 'Learn to drive with your Corgi A60' in six different languages. It was obviously impractical to translate the whole of the English text into five languages as the instruction leaflet would then take the form of a small book — which would have left little room in the box for the model!

Corgi re-introduced the driving school theme some years later

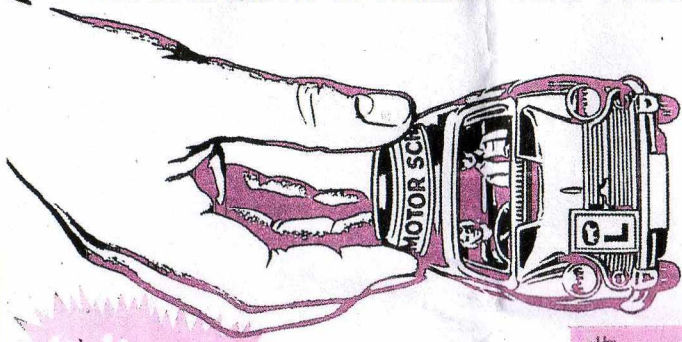

with a Volkswagen saloon and, more recently, with a Triumph Acclaim. Neither were given the left-hand/right-hand drive treatment so making the Austin A60 a real odd man out. Corgi did, however, produce at least one other model in both left-and right-hand drive format — subject of a future 'Odd Man Out' article.

Both the A60 models were withdrawn in 1968.

The value today of the right-hand drive version is in the region of £45, whilst the rarer left-hand drive one will cost £20+ more than this.

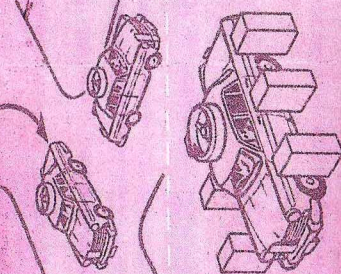

The models illustrated are from the Peter Barnes collection.

## STEER THE CAR BY THE SIGN ON THE ROOF

This Corgi Motor School Car teaches you the steering movement of a real car. You can turn right, left, drive on, reverse—in fact perform all possible manoeuvres. Have hours of fun by following your Corgi Highway Code. Draw out plans of roads you know and use, on which to drive your cars. Set up hazards to test your driving skill.

### TEACH YOUR FRIENDS TO DRIVE

If any of your friends have Motor School Cars you can form a Driving School of your own. Learn the correct turns and road signs, practice and then teach them to others.

"BLACK BEAUTY" CRIME FIGHTING CAR  
WITH SECRET BUILT IN MISSILE  
LAUNCHER & FLYING RADAR SCANNER

THE GREEN HORNET

268

Britt Reid, the famous American newspaper editor by day, "The Green Hornet" waging war against crime by night — these are the dual roles of T.V.'s exciting new hero who, to complete the mystery surrounding his identity, permits himself to be considered a ruthless criminal in some quarters to serve as a cover-up for his crime-fighting activities.

"Black Beauty", the famous automobile of "The Green Hornet", is equipped with a variety of fantastic gadgets — they include a button operated camera with a focusing range of four miles, closed circuit T.V. and apparatus which spreads a film of ice behind the car to foil pursuers. Your Corgi model features the most spectacular Hornet equipment — an Immobilising-Missile which fires from the front grille and the flying "Hornet Scanner" camera which shoots into flight from the boot (called a trunk in the States). Note also the simulated battery of Squirt Guns on either side of radiator grille revealed when opened to release the I-Missile. "The Green Hornet" uses only non-lethal weapons in his battle with crime and the Corgi model shows him at the ready with his Tear-Gas Pistol. It is not surprising that his faithful aide and chauffeur, Kato, is an expert in Gung-Fu, an advanced form of Karate and Jujitsu.

And now with your Corgi model of "Black Beauty", join "The Green Hornet" in his fight against crime. Perfect your marksmanship of the I-Missile with target practise.

Un célèbre rédacteur de quotidien américain pendant la journée, "La Guêpe Verte" luttant contre le crime pendant la nuit, voici le double rôle que joue Britt Reid, le nouveau grand héros de la Télévision. "Black Beauty", la fabuleuse voiture de "La Guêpe Verte", est équipée avec des accessoires fantastiques, comprenant une caméra actionnée par bouton-poussoir avec portée de 7 kilomètres, télévision à circuit fermé et un appareil qui étale une fine couche de glace derrière la voiture pour dérouter les poursuivants. Votre Modèle CORGI possède d'autres équipements spectaculaires de la Guêpe: un missile immobilisant, qui est lancé de la grille AV, et la caméra volante "Hornet Scanner", qui décolle du coffre de la voiture. Vous remarquerez également les batteries simulées de mitraillettes à jet sur chaque côté de la grille du radiateur quand celle-ci est ouverte pour lancer le missile immobilisant.

Britt Reid, am Tage der berühmte amerikanische Zeitungsredakteur, bei Nacht als die „grüne Hornisse“ im Kampf gegen Verbrecher... dies ist die aufregende Doppelrolle des neuen Fernsehhelden. „Black Beauty“, das fabelhafte Auto der „grünen Hornisse“, ist mit phantastischen Vorrichtungen ausgestattet — wie der Drückknopf-kamera mit einem Bereich von 7 km, Innenfernsehen und einer Einrichtung, die die Strasse hinter dem Wagen mit einer Eisschicht belegen kann, um Verfolger zu behindern. Ihr Corgi-Modell ist mit den sensationellsten davon ausgerüstet — einem Lähmgewehr, das vom Kühlergrill aus abgefeuert wird, sowie der fliegenden „Hornet Scanner“-Kamera, die vom Kofferraum aus in die Luft geschossen wird. Beachten Sie auch die Batterie vorgetauschten Spritzgewehre, die beim Öffnen des Grills zum Ableuern der L-Geschosse sichtbar werden.

A New York, à quelques pas du Quartier Général de l'ONU, se trouve une rangée d'immeubles comprenant un garage pour parking et quatre maisons délabrées dont l'une d'entre elles révèle, à son sous-sol, une petite boutique de tailleur -- l'entrée secrète de l'U.N.C.L.E. Ces maisons servant à camoufler un immeuble administratif moderne, de trois étages, le coeur, le cerveau et le corps de cette organisation qui s'est engagée à protéger, contre les forces du mal, le bien-être et les intérêts de gens et de nations de n'importe quelle partie du monde. Le personnel d'U.N.C.L.E. est composé de jeunes gens et jeunes femmes de toutes nationalités, soumise à un entraînement sévère et capables de faire fonctionner les équipements les plus complexes et d'accomplir les missions les plus dangereuses. La connaissance de plusieurs langues est une condition essentielle, y compris l'interlingua, langage secret de l'U.N.C.L.E.

L'agent No. UN de U.N.C.L.E., est Napoleon Solo, un homme calme, aux décisions rapides, possédant une efficacité incroyable masquée par une attitude indolente. Ilya Kuryakin est de l'équipe dirigée par Solo et il l'accompagne dans de nombreuses opérations internationales. L'équipe Solo/Kuryakin est redoutée même par les gangs les plus importants et les mieux organisés et joue un rôle prépondérant dans les succès internationaux de l'U.N.C.L.E.

In New York, einige Blöcke vom Hauptquartier der Vereinten Nationen entfernt, befindet sich eine Häuserreihe, die sich aus einer Parkgarage und vier baufälligen Häusern zusammensetzt. Im Keller einer dieser Gebäude befindet sich ein kleines Schneidergeschäft -- der Geheimingang des U.N.C.L.E. Die Häuser dienen als Tarnung für ein modernes dreistöckiges Bürohaus, welches das Herz, Gehirn und der Körper der Organisation sind, die sich zur Bekämpfung böser Mächte zum Schutze des Wohlergehens und der Interessen von Menschen und Nationen in allen Teilen der Welt verbürgt hat. Das Personal des U.N.C.L.E. besteht aus besttrainierten Männern und Frauen vieler Rassen und ist fähig, die fantastischsten Geräte auf den gefährlichsten Missionen zu bedienen. Sie müssen eine Anzahl von Sprachen, einschließlich Interlingua, der Geheimsprache des U.N.C.L.E. beherrschen.

Der an erster Stelle stehende Agent ist Napoleon Solo, ein ruhiger, schnell denkender Mann, der durch gemächliche Umgangsformen seine tödliche Leistungsfähigkeit verdeckt. Ilya Kuryakin ist in Solos Abteilung und begleitet ihn auf vielen internationalen Unternehmungen. Dieses Solo/Kuryakin-Team wird sogar von den größten und bestorganisiertesten bösen Mächten gefürchtet und ist für viele internationale Erfolge des U.N.C.L.E. verantwortlich.

U.N.C.L.E. (UNITED NETWORK COMMAND FOR LAW AND ENFORCEMENT) is a row of buildings consisting of a parking garage and four dilapidated houses — in the basement of one of these houses is a small tailor shop — the secret entrance to U.N.C.L.E. The houses act as camouflage to protect the welfare and interests of people and nations from many different races, capable of operating the most fantastic equipment and taking on the most dangerous missions. They have to speak a number of languages including interlingua, the secret language of U.N.C.L.E. Top U.N.C.L.E. agent is Napoleon Solo, a calm quick-thinking man with an easy going manner which hides his deadly efficiency. Ilya Kuryakin is Solo's action and most organized evil will forces and is responsible for many of the international successes of U.N.C.L.E.
