Under the skin of 'The Cossie'

Founded in 1958 by Mike Costin and Keith Duckworth, Cosworth proved to be the most successful engine manufacturer in the history of Formula One motor racing. Whether the Formula One World Championship was won by a driver from Lotus or Tyrrell, Williams or Ferrari, for decades the chances were that the winner would be powered by a Cosworth engine. From 1968 to 1974, for example (from Graham Hill in 1968 to Emerson Fittipaldi in 1974), the Cosworth DFV powered the car of every single world champion.

In 1986 a Cosworth engine was fitted to a three-door Ford, in which it immediately dominated touring car racing. But the real coup was coupling the Cosworth to the seemingly sedate Sapphire saloon, adding four-wheel drive in 1990. Though it never won a WRC round, the Sapphire Cosworth achieved an impressive score of top three finishes.

Oh to be beside the seaside!

The Brighton & Hove Bus and Coach Company is today one of the most progressive public transport services in the country.

The fleet consists of over 250 modern buses and 10 luxury coaches. A notable feature of the new buses is that they have particulate traps fitted to their exhausts which, combined with the use of ultra-low sulphur diesel, makes them among the lowest emission diesels in the world. Since 2002, a satellite-based tracking system allows expected arrival times to be displayed in real time at main bus stops across the region.

As a result of the Go-Ahead approach to public transport, Brighton & Hove Buses have achieved a growth in local bus usage by nearly 5% per year every year for the past seven years!

Who let the dog out?

In July 2005, Corgi Classics awarded a new £2.5 million warehousing and distribution contract to our near-neighbours in Rutland, C.S. Ellis Group Limited.

C.R. Ellis Limited was established in 1933 in South Luffenham, Rutland, England's smallest county, where the company continues to conduct its operations to this day.

Another facility offered to the company's clients is a contract hire arrangement, with dedicated vehicles decorated in the client company's own livery. No prizes for spotting the latest 'recruit' to the scheme, complete with the cheeky message on the rear: Who let the dog out!
